About The DMC

Imagine entering in a cozy bookshop whose owner is there to help you discover the book that will perfectly suit your taste among thousands of rare and unusual volumes stacked on the shelves. That is exactly the feeling you will get when working with Metropolis.

Metropolis is a sophisticated event and DMC specialist, whose team of passionate professionals will create, plan and deliver imaginative and highly creative events in France.

With more than twenty years of experience with international clients from Europe, Russia, Latin America and the US, a great knowledge and love of France and a qualified team of professionals, we have a real understanding of the needs of different markets and cultures.

Metropolis' experience covers all types of events from large congresses to small VIP Management meetings; incentive programs to awards ceremonies; product launches to country-wide road shows - all are planned and designed to match your objectives and budgets. For each inquiry, a project leader will discuss the various options available, ensure all the possible alternatives are considered and prepare a very detailed proposal.

Be it a gala dinner inside a prestigious museum in Chantilly or a wine tour in Champagne; a private cruise on a yacht along the Seine or a rally in Burgundy; Metropolis will provide you with ideas and support, to help you choose the best option among a wide range of peculiar venues, original activities and unconventional proposals that will make a difference.

Like a native who knows their own country better and more profoundly than any written guidebook, Metropolis is the ideal guide for those who are looking for something different, special, and deeply refined.
